Carlos Javier Flores Montoya

Senior MES & Digital Transformation Consultant | Reduced \$4.8M
USD WIP in 60 days | Full Traceability Expert | Ex-Safran, Outset
Medical, Enovis | Tijuana
Tijuana, Baja California, Mexico

Summary

Senior MES & Digital Manufacturing Engineer based in Tijuana.
I design, build and deploy full-traceability MES systems from scratch
that wipe out multimillion-dollar WIP losses and give plants real-time
control.

Proven impact:

Reduced lost WIP from \$4.8M USD → \$40K in 2 months (Safran
Aerospace – 3 plants, 60+ stations)
Led Tulip rollout + custom Python ETL in Class III medical devices
(Outset Medical)
Built 100 % custom MES ecosystems in FDA-regulated medical and
aerospace environments
Hands-on floor leadership: operator training, cultural change, 95 %+
adoption

Parallel to corporate roles I run hdecor.mx (family business) and
freelance as CFX – Continuous Flow Expert.

Currently open to:

- Senior / Lead MES Engineer
- Digital Transformation / Industry 4.0 Lead
- Tulip Platform Owner

Stack: .NET Core | Python | AngularJS | SQL/Power BI | Tulip
(certified) | IoT | REST APIs | ETL/ELT

Certifications highlights: Tulip Certified | Lean Six Sigma | AS9100 |
ISO 9001:2015 | Modern Data Architecture | Neural Networks | XAI
Spanish native • English intermediate-technical (daily shop-floor +
actively leveling up)

Zero PowerPoint consultants. Only results measured in millions
saved.

DM or call if you need someone who can digitize a plant in months
and make operators love the system.

Experience

Independent

CFX – Continuous Flow Expert

July 2024 - Present (1 year 9 months)

Tijuana

Senior MES & Digital Transformation Consultant

Full-cycle custom MES & Tulip implementations for FDA medical device and aerospace plants

Multimillion-dollar WIP/inventory recovery projects (diagnosis → code → floor rollout → operator adoption)

Real-time traceability systems + shop-floor analytics (Power BI, Python ETL)

Industry 4.0 roadmaps & digital adoption programs with 95 %+ operator usage

Also running family business hdecor.mx ([instagram.com/hdecor.mx](https://www.instagram.com/hdecor.mx))

Open to senior/lead roles in Tijuana or nearshore

Outset Medical, Inc.

Operations and Digital Adoption Enginner

April 2023 - May 2024 (1 year 2 months)

Tijuana, Baja California, México

Led Tulip platform rollout + custom Python ETL for Class III medical devices

Built real-time electrical test dashboards → reduced WIP from \$40 k → \$8 k in weeks

Operator efficiency analytics: identified 300 % vs 10 % performers → workforce reallocation & standard time recalibration

Integrated Tulip + QAD + Power BI with zero downtime

Enovis

Senior Supply Chain Planning Analyst

March 2022 - April 2023 (1 year 2 months)

Tijuana, Baja California, México

Designed & deployed mini-MES for sub-assembly control (barcode scanners, digital labeling, real-time alerts)

Real-time dashboards (Power BI): downtime, labor efficiency, takt time, open orders

Automatic sub-assembly requests + station validation → eliminated stock-outs and overproduction

Safran

Operative Support Enginner Developer (MES)

September 2018 - March 2022 (3 years 7 months)

Tijuana Area, Mexico

Built entire MES from scratch (PHP + AngularJS + MS SQL) under extreme server restrictions

Serial/lot/box traceability + LabView test integration

Pull System + flexible cells + supermarket control

Andon system with Raspberry Pi + sensors + real-time SMS alerts

Reduced sorting errors and downtime by 80 %+ through real-time visibility

SMK Electronics

Programmer Analyst MIS

July 2015 - September 2018 (3 years 3 months)

Tijuana, Baja California, Mexico

Responsible for developing and optimizing systems and processes to enhance material control, server performance, and departmental operations. Focus on creating a robust and efficient systems environment for the company.

Key Responsibilities:

System Development:

Created a Pull System (Kanban) for flexible cell use, material control, auto-attendance notifications, and material requisitions.

Managed control and registration of restricted substances.

Server and Database Management:

Optimized server performance and created new servers and web services.

Analyzed and maintained databases, ensuring data integrity and efficiency.

Web Programming:

Developed programs in a web environment to support business functions.

Negotiated and administered departmental processes, ensuring smooth operation.

Process and Standards Management:

Authorized procedures and standards for computer functions.

Determined feasibility and implementation priorities for new systems.

Strategic Planning:

Planned and developed long-term strategic plans to ensure robust and efficient systems and methodologies.

Ensured alignment of IT strategies with business goals.

Key Achievements:

Successfully implemented a Pull System (Kanban), enhancing material control and flow efficiency.

Improved server performance and reliability through optimization and creation of new servers and web services.

Ensured efficient database management and web programming, supporting various business functions.

Established and maintained high standards for departmental processes and IT operations.

Developed strategic IT plans that provided the company with robust and efficient systems, supporting long-term business objectives.

HDecor

Workshop Manager

January 2010 - September 2018 (8 years 9 months)

Tijuana

Design and creation of a product and a correct installation Certified to work with many unusual materials, such as: Trespa, epoxy, solid surface, and chemical resistant surfaces.

Carpentry, Detailing, Installation, Manufacturing, Formica

Bolt Media

Web Developer, Community Manager, Social Media, IT

April 2015 - July 2015 (4 months)

Tijuana Area, Mexico

Development of web systems, administration of databases of different clients, management of new clients aided by social networks, Image Management and advertising of national brands as binational. Creation of process manuals to improve the control and management of the company's projects.

Plasma Diseño de Stands

IT, Web Designer

May 2013 - April 2015 (2 years)

Tijuana Area, Mexico

Development of web systems, administration of databases of different clients, management of new clients aided by social networks, Image Management and advertising of national brands as binational. Creation of process manuals to improve the control and management of the company's projects.

Click

Freelance Web Designer

April 2011 - April 2013 (2 years 1 month)

Tijuana

Design and web development, using different languages and applications, both in programming and in graphic design, knowledgeable and defending standards, accessibility, usability. Adjustable design to devices (responsive). Getting the top positions for many of my clients.

Telcel

Internet Mobil

January 2010 - June 2010 (6 months)

Se logró introducir al mercado el nuevo producto de Banda Ancha TELCEL aumentando considerablemente el número de clientes al lograr cerrar contratos de servicio por 18 meses, encargado de distribuir los equipos y soporte tecnico.

Education

Instituto Tecnológico de Tijuana

Bachelor of Engineering - BE, Computer Science · (2015 - 2019)
